Subject: Microsoft Settlement

1/23/2002

Dear DOJ,

I am writing to express my disappointment with the proposed settlement for Microsoft. The current settlement does nothing to address the real problem, which is Microsoft's abuse of its monopoly position on the desktop computer.

I am very proud to be an American, and I hope all Americans hold their freedom as dear as myself. When a company abuses a monopoly position, it is an action which threatens the freedoms of all American citizens.

Please discard the current proposal and ask for industry assistance to arrive at a fair and productive judgment. I gladly offer my time to serve the public on a board to organize and present possible solutions that restores our freedoms.

Sincerely,

John Post
